COMMUNICATION
ACCOMPANY CIP APPLICATION

June 14, 2001

Hon. Commissioner of
Patents and Trademarks
Washington, DC 20231

Sir:

This CIP application is being filed in response to the Final Office Action
dated March 14, 2001.

CIP Application of U.S. Serial No. 09/303,980
in Response to 3/14/01 Final Office Action

Applicant wishes to thank the Examiner for the time and courtesy extended during the telephone interview conducted on May 14, 2001. During this interview a draft After Final Amendment was discussed. It was agreed upon by the Examiner, as recorded in the Telephone Interview Summary Record, that applicant could overcome the outstanding prior art rejection with respect to claim 4 by filing a continuation-in-part application to include an example in which the vacuum deaeration device was manufactured using a dispersion liquid that did not include any olefinic or aromatic substances. During the interview the Examiner also indicated that claim 6 contained new matter that was not supported by the disclosure, as originally filed. Applicant in this continuation-in-part application has amended the specification to include proper support for the claimed invention and to include an example of a device manufactured in accordance with the present invention.

Applicants submit that application and claims are now in condition for allowance and such action is requested. If for any reason, the Examiner should deem this application not to be in condition for allowance, it is respectfully requested that he telephone the undersigned attorney at the number listed below.

CIP Application of U.S. Serial No. 09/303,980
in Response to 3/14/01 Final Office Action

If any additional fees or charges are incurred in connection with the
above-identified matter, authorization is hereby provided to charge our U.S. Patent
and Trademark Office Deposit Account No. 04-0100.

Respectfully submitted,
DARBY & DARBY P.C.
